## THE RENAISSANCE OF MADAME'S APARTMENTS

In June 2025, a new page was written at the summit of Le Negresco. The sixth floor, Jeanne Augier's private refuge, was transformed into an amazing Penthouse Suite. This is where Jeanne Augier, the hotel's visionary custodian, once fiercely elegantly oversaw everything in her palace. The 400 m<sup>2</sup>/ Suite will offer a breathtaking 180° view over the Baie des Anges, complemented by 3 private terraces 200 m<sup>2</sup>/, a veritable cocoon of serenity overlooking the sparkling waters of the Mediterranean.

Suspended between skies and sea, this suite pays tribute to time. Much more than a mere homage, it crystallises the soul of Le Negresco, perpetuating its timeless heritage while ushering in a new era of modernity. In this way, time never stands still; it is celebrated, reinvented, and immortalised.

With its architecture, artworks and history, Le Negresco epitomises a heritage that must be safeguarded for future generations. Each new renovation initiative contributes to writing a page to this legendary hotel's Odyssey while honouring Madame Augier's legacy.
